

Beware Of Fake Groups

We would like to bring your attention to an important update regarding the official status of your groups. In order to ensure authenticity and credibility of our communities. We are revising our verification process.

If these **IMS official Numbers** (+9231394***80 & +9233155***35, +4991319***17, +9233187***84) are listed as an admin of the group, it signifies that group is an official group of IMS (Islamic Messaging System). This will indicate that you are part of IMS official community. On the other hand, if the IMS official numbers are not listed as your group admin, it means that the group does not belong to IMS and therefore, it is not an official IMS group.

We kindly request all IMS members to adhere to this verification process and ensure that IMS official numbers are in place as group admin to maintain integrity of IMS communities.
